Be Legendary.™

*and the Tom and Frances Leach Foundation*

# Joanne Drevlow

I began my art studies at the University of Wisconsin and later transferred to UND in Grand Forks. I received a BA in art with teacher certification in 1991. I spent 25 years teaching art in various schools in Minnesota and North Dakota where I taught k-12 art, sometimes k-8, and the last ten years teaching 6-12 art at Shiloh Christian School. I also taught art teaching methods to teachers at the University of Mary for 7 years. During my teaching years, most of the art I did consisted of examples for teaching lessons.

I was privileged to be called to design sets for many different theaters both here and in Minnesota, but my own studio art had to wait until my retirement 3 years ago. I bought a kiln, set up a studio, and began to create! I love working with clay because it is so tactile. I combined my love of gardening by making sculptural objects for the garden. I also incorporated my love of bright color in the use of glazes. That love of color and texture has spilled over into my paintings as well.

I enjoyed my years teaching and I am now enjoying my time creating! Joanne is an active member of both Bismarck Art & Galleries Association and the Bismarck Downtown Artists Coop.
